Acceptance of the Final Operable Unit 15 Phase I RCRA Facility Investigations/Remedial Investigations Report

Dennis Schubbe, Operable Unit Lead  
Environmental Restoration Management  
EG&G Rocky Flats, Inc.

This memorandum conveys the State of Colorado letter accepting the Final Operable Unit (OU) 15 Phase I RCRA Facility Investigations/Remedial Investigations Report. I congratulate your group, and you personally, for the professional manner in which the program for this OU has been executed. The State acceptance of the Report is the last milestone in the current Interagency Agreement (IAG) schedule for OU 15. You are commended for providing the draft and final Phase I Reports earlier than the IAG milestones.

The State letter also requests a schedule for five milestones, ending with a Final Corrective Action Decision/Record of Decision. Please provide a proposed schedule to this office by February 7, 1995.

After the milestones are established through interaction with the State and the Environmental Protection Agency, the first two deliverables are: the Certification of RCRA Clean Closure and the Draft Proposed Plan/RCRA Permit Modification. Please coordinate with SAIC, Tom Greengard, in scheduling the Certification, and address the RCRA Permit Mod as well as the Proposed Plan in your schedule.

If you have any questions or comments, please call me at extension 4013.

William N. Fitch  
Project Manager for OU 15  
Environmental Restoration
